## Conventional System Fire Alarm

Model	Description	Unit price	QTY	Total
FS4000/2	2-Zones Conventional Fire Control panel	2100		
FS4000/4	4-Zones Conventional Fire Control panel	2300		
FS4000/6	6-Zones Conventional Fire Control panel	2500		
FS4000/8	8-Zones Conventional Fire Control panel	2850		
FD4201/8	Extension module with 8 output relay	1150		
FD8010	Fixed temperature heat detector, with Base.	165		
FD8020	Rate of rise heat detector, with Base.	165		
FD8030	Optical-smoke detector with self-compensation of the optic chamber contamination, with Base.	180		
FD8060	Combined optical smoke and rate of rise heat detector, with base.	240		
FD8040	Flame detector, IR, with optional Base.	795		
FD3050	Manual call point with BREAKABLE glass	200		
SV2002F	Indoor siren – plastic box, with flash – 112dB, 16-30V.	240		
FD 8204C	Indoor Conventional Siren	220		
SB112F	Outdoor siren – metal box, with flash 110dB, 12-30V	850		
RI31	LED Remote Indicator.	50		
MODBUS RTU	BMS Interface Module.	4860		
RS-LAN	LAN Interface Module.	3970		
<b>الاجمالي</b>				

## Addressable System Fire Alarm Made in Bulgaria

Model	Description	Unit price	QTY	Total
IFS7002-1	1-Loop Interactive Addressable Fire Alarm panel	14150		
IFS7002	2-Loop Interactive Addressable Fire Alarm panel	18750		
IFS7002-4	4-Loop Interactive Addressable Fire Alarm panel	32760		
IFS7002R	Repeater Panel	13350		
Software	Graphic solution for above systems	27300		
FD7110	Fixed temperature <b>heat</b> detector with isolator base	470		
FD7120	Rate of rise <b>heat</b> detector, with isolator base	470		
FD7130	Optical <b>smoke</b> detector, with isolator base	510		
FD7160	Combined optical <b>smoke</b> and rate of rise <b>heat</b> detector,	590		
FD7150	Manual call point	565		
FD7203	Input /output module	805		
FD7204	Sounder and Beacon with isolator base	1460
